Linowes and Blocher LLP represents manufacturing companies in all aspects of their business operations. We assist firms in acquisition and/or leasing of manufacturing facilities, land use entitlements, business agreements and ongoing regulatory compliance. We also assist them in risk management activities and in resolving business controversies.

Among the broad range of issues we advise manufacturing companies on are the following:

- Entity formation, governance and structure
- Federal and state income tax issues
- Real estate transactions
- Environmental issues, including hazardous waste and brownfields
- Corporate finance and commercial borrowing
- Business agreements
- Litigation
- Regulatory approvals
