Linowes and Blocher LLP represents various types of companies that support the commercial and residential construction industry. These firms provide services and materials to residential and commercial contractors and land developers for a wide range of projects throughout the Washington, D.C. metropolitan area.

Services that we provide to companies in this industry include:

- Entity formation, governance and structure
- Federal and state income tax issues
- Business agreements
- Environmental issues
- Litigation
- Land use, zoning and development approvals and permitting
